

Dr Frances Willis

Educational Psychologist

What I do:

I talk to lots of people and use games to help work out how to help a child.

What people appreciate about me

I have lots of energy and enthusiasm. I smile a lot and love having a giggle. People usually say they find it easy to talk to me.

What's important to me

I love eating sweets (especially Haribo!), watching TV, travelling and taking photos. My husband and three little kids are the most important people in my life.

How I work best

I believe that people know best about their own lives so I really like talking to people and deciding together how to make changes that will really help them. I like thinking about a whole school or class and making positive tweaks that help everyone!
