

Louise Rodgers

Trainee
Educational Psychologist

What I do:

Trainee Educational Psychologist

What people appreciate about me

That I will listen to what is important to people and I understand that people are an expert in their own lives. I can help people to solve their problems and to feel better about them.

How I work best

I'm really flexible and can work in any places
with anyone!

What's important to me

I really want the young people I work with to know that they are safe with me and that I will respect their wishes if there is something they do not want me to share with others. Its important to me to be an ally.
