

Abigail Kershaw

Trainee Educational Psychologist

What I do:

I work with young people, their families, and schools to see how we can help make school even better!

What people appreciate about me

I'm kind and want to help people, I'm honest and keep my promises, I'm organised and like to be on time.

How I work best

When I have time to reflect and think about things before then working collaboratively with others, when I have some choice over how I complete my work.

What's important to me

My family, friends and my 3 cats! Getting outside everyday for fresh air, showing kindness to other people.
